Objective

Aspiring Full Stack Developer eager to build scalable web applications and deliver seamless user experiences, leveraging a strong foundation in front-end and back-end technologies to solve real-world problems.

Skills

- **Programming Languages:** JavaScript, Java (Basics), Python.
- **Frontend:** React.js, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Flask (Python), REST API,
- **Databases:** My SQL, Firebase
- **Tools:** Git, Postman, Figma, GitHub.
- **Familiar with:** Web Design, Manual Testing, Agile Methodology, CI/CD (GitHub Actions), SDLC

Projects

HTD's E-Commerce Website

[github](#) 

- **HTD** is an e-commerce platform that allows users to browse, sample, and purchase fresh dairy products from home. Built using **Flask (Python)** and **Firebase**, it delivers a secure and seamless shopping experience.
- Tools used: Python - Flask, Firebase, Stripe

TOWNSHIP - Township management system

[Live link](#) 

- **Township** is a user-friendly township management system designed to bridge communication between township owners and their tenants. Built entirely using **PHP** and **MySQL**, it enables seamless interactions with custom features for both tenants and administrators.
- Offers tenants features such as complaint submission, maintenance payment, gas tracking, and instant email alerts, while enabling admins to manage tenant data and utilities through a secure, customizable dashboard powered by PHP, MySQL, Razor pay, and Tailwind CSS.
- Tools used: PHP, My SQL, Tailwind CSS

Internship

Web Developer

Vrishaba Visual Solutions

T. Nagar, Chennai

Jan 2025 – April 2025

- **Built a scalable Township Management System** using PHP, MySQL, and Tailwind CSS—streamlined residence operations, complaint tracking, gas billing, and Razorpay-integrated payments for 50+ users.
- **Executed detailed on-page SEO strategies**—optimized metadata, improved loading speed by 40%, and improved organic visibility, increasing traffic and engagement.
- **Led end-to-end WordPress e-Commerce projects** - customized themes, integrated essential plugins, and live sites deployed, resulting in a 30% faster development cycle and improved customer satisfaction.
